Ayer's Hair Vigor keeps the hair soft and pliant, imparts to it the lustre and freshness of youth, causes it to grow luxuriantly, eradicates Dandruff, cures all scalp diseases, and is the most cleanly of all hair preparations.

**AYER'S** Hair Vigor has given me nearly bald for six years, during which time I used many hair preparations, but without success. Indeed, what little hair I had, was growing thinner, until I tried Ayer's Hair Vigor. I used two bottles of the Vigor, and my head is now well covered with a new growth of hair. — Judson B. Chapel, Peabody, Mass.

**HAIR** that has become weak, gray, and faded, may have new life and color restored to it by the use of Ayer's Hair Vigor. My hair was thin, faded, and dry, and fell out in large quantities. Ayer's Hair Vigor stopped the falling, and restored my hair to its original color. As a dressing for the hair, this preparation has no equal. — Mary N. Hammond, Stillwater, Minn.

**VIGOR**, youth, and beauty, in the appearance of the hair, may be preserved for an indefinite period, by the use of Ayer's Hair Vigor. "A disease of the scalp caused my hair to become harsh and dry, and to fall out freely. Nothing I tried seemed to do any good until I commenced using Ayer's Hair Vigor. Three bottles of this preparation restored my hair to a healthy condition, and it is now soft and pliant. My scalp is cured, and it is also free from dandruff. — Mrs. E. R. Foss, Milwaukee, Wis.

## STRANGE METALLIC FREAKS.

Queer Forms Assumed by Molten Silver Dropped on Cold Slabs.

Ten years ago this winter I stood in the big California stamp mill at Virginia City, Nev., watching the sixty ponderous 250-pound weights thundering on the quartz. The pulp was being stirred in the great pans; the molten silver was being poured out in a blackened but solid mass. Now come down to the refining room and I'll show you something. Dye ever see how silver spreads when you drop it? I can't do this as well as I'd like to, for there's too much gold, this stuff runs 45 per cent gold, and it's too heavy to work as I'd like it.

"That," said Senator Fair, then superintendent of the Big Bonanza mine, "is amalgam-quicksilver and gold and silver. We put that in red hot retorts. The quicksilver passes off in vapor, is caught and precipitated, and the bullion comes out in a blackened but solid mass. Now come down to the refining room and I'll show you something. Dye ever see how silver spreads when you drop it? I can't do this as well as I'd like to, for there's too much gold, this stuff runs 45 per cent gold, and it's too heavy to work as I'd like it."

Senator Fair led the way to a room in a brick building adjacent, where two great cauldrons were boiling and bubbling. "There's half a million in each of those," said Mr. Fair. "Johnny, clear this iron table, and get me two blocks of ice."

The ice was brought, and the blocks were placed a foot apart on the iron bed. When all was chilled Mr. Fair said: "Give me a fifty ounce ball." The latter was dipped into one of the cauldrons and came up with a pint of white, molten fluid. "Now watch," said Mr. Fair. He held it up as high as his arms would reach and dropped it on the cold slab between the cakes of ice. He dropped it in splashes of little more than a tablespoonful each. "The effect was marvelous. As the liquid silver and gold fell its weight scattered it into 10,000 conceivable shapes, and the cold chill so suddenly applied congealed it into a hundred thousand inconceivable shapes in an instant. There were splatters and splashes and all sorts of things. Where a single drop would fall it would expand to either a coach wheel or a cobweb, as the freak would take it. If Mr. Fair dropped a spoonful next the cake of ice the splashes would rise, catch on to the ice and make a perfect little wire forest. It was one of the most beautiful sights the writer had ever seen.

"Jewellers and silversmiths," said Mr. Fair, "get a good many of their ideas from just such idiosyncrasies of silver bullion. I have held it up before now, dropped it and seen come out the oddest and most surprising forms. Lon Hamilton, Jones' brother-in-law, has a complete coach and four and hounds behind—the result of just one splash on a cake of ice down at the Belcher. Odd things in silver! Oh, the silversmiths are more perfect than we are, but I'll bet I can hold this ladle up, drop the whole of it on that cold slab and you will see a variety of forms, devices and grotesqueries such as you never dreamed of. Johnny, give me a fresh ladle. Now, stand away. Here she goes!" and a pint of molten silver went out on the cold iron. Ten thousand shapes and all shapes, and ten other thousand forms were there. There were forests and streams, and birds and reptiles, and rocks and mountains. To have picked out all would have been a week's task.

"Chuck it back into the pan," said Mr. Fair. "Give me another ladle. Now watch this!" Down it went on the cold slab. There were elephants and giraffes, and lions and dogs, and African bungalows, and on one splash a marching regiment could have been made out by but a trifling stretch of the imagination. — Chicago Herald.

## REASONS.

There are forty reasons why men dress well, some of them decidedly curious should they be probed.

Expediency of odd sorts serves to accomplish certain ends and the like.

Most men, we trust, rise to the higher plane of neatness and good taste. A well-bred man pleases himself and enjoys a satisfaction in knowing he attracts no attention by too little dress or too much. In our very full supply of

you will find the happy medium that every gentleman of good taste and every mother of refinement, who wishes to see her boys well dressed, enjoys.

In answer to the question so often asked,

**Where Can I Do the Best?**

we would say, and prove it if necessary, that every dollar's worth of goods that is delivered to us, after being examined and found correct, is paid for **SPOT CASH**. This and a twenty years' experience in our business, knowing how to buy and where to buy, offsets any argument that has been and may be made by any of our competitors as to their offering extraordinary bargains, without any good reason on their part as to their superior ability, financially or otherwise, to procure them.

**THE DAMAGE CASE.**  
The hearing of further testimony in the \$5,000 damage case was resumed at 10 o'clock. Mrs. Minson, the plaintiff, is in the witness chair.  
DECATUR people should be taking active steps toward capturing the state fair. Peoria, Springfield and Olney are moving in the matter, but so far as known Decatur is asleep. It is time railroad and location committees were appointed and put at work. The bill for the permanent location of the fair is now before the General Assembly. It provides for the purchase of not less than 100 nor more than 320 acres of land, centrally located, an appropriation of \$100,000 to be used in the construction of permanent buildings, and that donations should be received by the state board of agriculture; and further, that reasonable terms of transportation of freight shall be secured from the railroad companies. Now is the time for the citizens to get in shape to make a strong bid for Decatur.

The present members of the Presbyterian choir are Miss Annie Berry, soprano; Miss Eymann, alto; Will Roberts, tenor; and Budgie Brown, basso; organist, David Brown.

B. S. JACK has been a frequent visitor at the postoffice of late. He is rather taken up with the office and its emoluments, and will take charge in a few days.

**Chris and Lena.**  
On Wednesday evening Mr. Pete F. Baker, supported by a carefully selected company, will appear at the opera house in the popular comedy, "Chris and Lena."

Mr. Baker's fame as a German dialect comedian is world-wide, and his company is said to embrace a number of good specialty people. The part of Lena will be sustained by Emily Vivian, a charming soprano; that of Tim Flaherty by the well-known Irish comedian, John Kennedy.

TO-DAY Bert Meriwether is in charge of the Harvey Downing saloon on the west side of the old square. He bought the outfit on Saturday and Downing has retired. He will refit the place and make it bright and inviting. Bert has been at Tommy Andrews' place for a number of years and has a large personal acquaintance.

This morning Agent M. P. Murphy received two boxes of Logan's books from the publishers' office, and he is busy delivering volumes of "The Great Conspiracy" to local subscribers. (The book can be obtained only by subscription of Mr. Murphy. See him in person, or drop him a card through the postoffice, and he will give you a call in person.)

It is announced that Manager Conklin, of the Terre Haute & Peoria road, will purchase 6 new locomotives, 8 coaches, baggage and express cars, 200 box cars, 75 coal cars and 60 stock cars, and steel rails to lay 75 miles of track.

We have heard many of our old friends say that Salvation Oil cured them of rheumatism. Those who have not tried it should do so. Our druggists sell it for twenty-five cents a bottle all the time.

Why suffer with a bad cold when one bottle of Dr. Bull's Cough Syrup will cure a cough of the worst kind. Dr. Bull's Cough Syrup is sold for 25 cents per bottle by all druggists in the United States.

C. L. MOONEY, adjutant of the fifth regiment I. N. G., and also a member of the Sons of Veteran organization, was buried at Springfield on Sunday. Capt. Wells and Lieuts. Elshager and Dillehunt, of the Decatur Guards, were in attendance.

The suit of the P. D. & E. railway company to condemn the right of way through the farms of Robert N. Forsyth and B. H. Brainerd, of Logan county, was tried in the circuit court on Tuesday last, and resulted in fixing the damages at \$2100 to Mr. Forsyth's farm and \$400 to Mr. Brainerd's.

**Funeral of M. J. Perry.**  
The mortal remains of the late Robert Lee Perry, former roadmaster of the Wash road and a citizen held in high esteem, were consigned to the grave in Greenwood to-day, in the presence of a large number of friends. The funeral services were held in the lecture room of the first M. E. church, which was filled with relatives and friends. The church services were conducted by the pastor, Rev. T. I. Coultas, assisted by Rev. W. H. Prestley, of the Presbyterian church, and Rev. L. Field, of the United Brethren church. The church choir, led by Milton Johnson, furnished the music. Nearly 40 members of Beaumont Commandery, No. 9, Knights Templar, in full uniform, were present. The ritual service was read at the church and at the grave the remains were laid to rest with Masonic ceremonies. Upon the massive casket rested the Sir Knight hat and sword of the deceased, and there was a profusion of beautiful floral offerings displayed. Goodman's band in uniform and the Knights Templar were in the funeral cortege.

SUNDAY night Officer Jack Lilly, who is the regular policeman on duty at Stapp's Chapel during the revival meeting, arrested H. E. Russell for disorderly conduct and lodged him in the first ward calaboose. He was under the influence of liquor and made himself a nuisance by spitting tobacco juice on ladies' dresses. Lilly yanked him out of the church and walked him off. He put up a bond about 12 o'clock to appear before Justice Stevens. The cash accompanying the bond was \$3.50. It is not likely that the officers will be troubled with Russell any more, and any other party who conducts himself in an improper manner at the revival will be promptly arrested.

**Hoodman Blind.**  
This magnificent spectacular drama Thursday evening. It had a run of over 300 nights at the Princess in London. The *Inter-Ocean* says of it: "The interesting thing about Hoodman Blind is its strength in simplicity. There is not a movement when the play is unimpressive. The vitalizing thing within this play is the nature of its emotions. The characters are set in from life."

The lending habit demolished a \$15 show case at the New York store Saturday afternoon. Two customers, rather tired, unconsciously pushed it off on the floor. Some grown people find it hard to stand up without a prop.

JUDGE SMITH got in from Champaign to-day and was on the bench before 11 o'clock.

There were 423 persons at the First M. E. Sunday school yesterday, and the penny collection was \$5.50.

GOODMAN'S band was in the Perry funeral cortege to-day. It was so cold that the particles of ice hung from the ends of the horns.

ALL parties interested as principals or witnesses in criminal cases are expected to report in court on Thursday.

The funeral of Dan M. Kendrick, formerly passenger agent for the old Paris & Decatur road, took place at Terre Haute on Sunday afternoon, and was attended by railway officials generally. Mr. Kendrick was 40 years of age, and had been in the railroad service since 1872, he commencing on the Paris & Decatur road as clerk in the auditor's office. In 1877 he came on to the Bee Line as district passenger agent, and February 3, 1880, he was appointed general passenger agent of the Delaware and Hudson Canal Railroad company. In 1885 he was appointed general passenger agent of the New York Central road on the retirement of General Passenger Agent Meeker. He died at Thomasville, Ga.

**JIMMY CONNERS**, who seconded Billy Myers in his recent battle with Duly, of St. Louis, is matched to fight a finish Jimmy Murphy, of St. Louis. The amount of stakes is \$500—\$250 a side. The match is to come off in the near future. Connors is now in training in Decatur and is getting more wind every day by hard work. He was out Saturday afternoon for three hours running and walking over rough fields. The place of the meeting between Connors and Murphy is unknown.

JAMES' CHAPEL had 131 in their Sunday school yesterday. Revival services every day at 2:30 and 7 p. m. Fifteen at the altar last evening. Rev. DuBois and Charley Murphy are conducting the services.

**That Problem.**  
Fred Smith's solution of the meat problem is not correct. He gives it to be 237½ lbs. at 10½c, and 262½ lbs. at 9½c; that would give 500 lbs. But the amount paid by each would be \$24.93½, while the answer required must give the exact number of pounds, ounces and fractions of an ounce, and the amount paid by each must be exactly \$25.00. Mr. Smith must try again, or he may lose his thousand dollars, as his solution, being incorrect, could not compete with any correct solution, whether long or short. E. L. S.

**A Celebrated Mare.**  
The cut of Modesty G., the celebrated sweepstakes mare, owned by Dillon Bros., will be inserted in the annual report of the Illinois State Board of Agriculture. This will make the fourth time in succession that the cut of this grand mare has been inserted as the sweepstakes mare of Illinois, and she is the only animal ever having made this record. Besides this, she has taken first prize three years in succession in her class as best mare four years and over at the Illinois state fair; also, first prize three years in succession at the Indiana state fair, and first at St. Louis three years in succession. At the Wisconsin state fair in 1906 she won first prize, also at the World's fair at New Orleans. She is the most noted draft mare on the American continent to-day. She has won thirty-four first and two second prizes.—*Bloomington Pantagraph*.

**Card of Thanks.**  
We wish to express our sincere thanks to the many friends who so kindly extended to us their aid and sympathy in the illness and death of our daughter.

**A CARD.**  
EDITORS REPUBLICAN: We desire to extend through your columns our sincere thanks to our many friends for their kindness during the illness of our deceased daughter; and also to the young ladies of the fourth ward for their beautiful floral offerings.  
MR. AND MRS. A. M. STOKER.

G. P. HART for upholstery and shade goods.

**The Guards.**  
The Decatur Guards are still in town and are as numerous as they were last summer when they braved dangers and went to East St. Louis to protect property. The membership is about 60, and all are faithful in their attendance at drill and business meetings. They have not yet received pay for their work at East St. Louis, but they are hopeful and believe that in time they will get the munificent sum of about \$450 each for the eight days of guard duty. The state allows the company barely enough cash pay for rent of hall and insurance, and now they are \$100.65 in debt. They get water at the armory but the city taxes them \$7 a year. The boys are now bothered about that indebtedness and want to get square with the world. How are they to do it? That is a question that worries them. They sacrifice their time to the service of the community and state as one factor used toward the enforcement of the law in times of trouble, and it looks as if they might be given a benefit of some character to wipe out that debt. A school of instruction in military tactics has been formed. The meetings will be held every Tuesday night at the armory. The public is invited to attend these sessions and also the drill meetings.

**PERSONAL MENTION.**

J. W. Butman, who has been quite ill for several days, is some better.

Dr. J. L. Connelly, of Harriestown, was in the city to-day.

*Peoria Journal*, 28th: Detective Flynn was dining at the hotel in the name of the city of Peoria yesterday. The guest was Chief of Police Mason, of Decatur. Officer Mason was piloted round and absorbed the entire patrol and alarm system. He goes back to Decatur highly edified and pleased.

**Rehearsal Postponed.**

When Prof. Westhoff took charge of the vocal class it was with the understanding that he should conduct two classes one for rudimentary work, the other for those who might desire to do chorus or glee club work. The "Cantata of Esther" was selected, and the leading singers in the city invited to join in the rendering of it. All that time it was thought probable the revival meetings then in progress would close by the 1st of February or before, and the singers would be able to assist, as many of them expressed a willingness to do. The meetings are still in progress and the interest unabated, and the association rejoices in the grand work going on, and would not desire the singers to leave their meetings if they would to take up the work. The rehearsals will be postponed until the meetings close, and in the meantime the orchestral parts will be written and prepared, and after the close of the revivals there will be a meeting of all the singers in the city who are willing to assist in the rendering of this grand oratorio for the benefit of the association; and Decatur will be vigorously pushed, and Decatur will have one of the best musical treats her talent ever gave. The singers leaving rehearsal time have made excellent progress, and it is only because of the conflict before stated and the fact that Decatur wants all of her good musical talent united in this acknowledged masterpiece, that Prof. Westhoff and myself have decided to postpone the rehearsal. Monday evening, Feb. 13, is the time we take to have a full rehearsal. Singers, please retain the books and commit the words as far as possible. The orchestra will be present at next meeting.

HUNTING THE ANTELOPE.

The Fleetest and the Most Graceful of Quadrupeds.

Wild Sport for Huntsmen on the Plains of Montana—The True Way to Hunt Them—Game Warden Hunt and the Sun.

Western hunters and plainsmen agree that this is the best season for antelope that Montana has seen for years.

Where they come from it is hard to tell, for it was supposed that the herds of domestic cattle had driven them away with the buffalo, who a few years ago retired to more remote pastures. It is probable that they have migrated south from British territory, where the cold has already set in rather early.

Probably the favorite stamping-grounds of the buffalo at the present writing are the Saskatchewan Plains, and it is also probable that the antelope are not far from the buffalo. Nevertheless, while but few bison are to be found in Montana this year, the antelope are back among us in nearly as great numbers as of yore.

Farmers and Whippers of the regular army, returning a few days ago from an overland trip to Fort Maginnis, on the Mussellshel, reports seeing numerous bands of antelope along his route of travel, some of which ran up into the thousands. All the deer and antelope bugged this season appear to be in the very best condition. Certainly the haunches of venison and ribs of antelope brought into this post by Indians to sell are exceedingly fat, rosy and juicy.

To hunt the antelope successfully requires more than ordinary skill. With the exception of mountain sheep, antelope are the most difficult game animal to approach on the continent. A deer will stand up and actually seek fight; a buffalo will run at first, but once wounded a stand-up fight to the bitter end is the probable outcome; an elk can be approached and slain without exercising extraordinary precautions, and a deer is sometimes as dangerous and as beligerent as a mountain lion. On the other hand, the antelope first, last and all the time depends upon his legs for safety, and it is fair to say that they are the fleetest, as they are the most graceful of quadrupeds. There is no fun in store for the greenhorn who attempts to hunt this animal without understanding its ways and habits. Anybody can hunt and kill a bison, a bear and many of the other large game animals; but the antelope demands the most skillful of huntsmen to compete with its keen sense of sight and its extraordinary fleetness of foot. The power of scent is wonderfully acute in them, for it seems that they can smell a man at six hundred yards and beyond with the most astonishing exactness. Their tenacity of life is beyond all conception. I have frequently seen antelope with one leg shot away and hanging by the tendons alone outlive and escape from the fleetest plains ponies and the most expert hunters. It is possible that an American horse might run them down, but as a rule nothing on the prairie can catch them, and the greyhound is about the only four-footed beast in existence that can be depended upon to keep pace with them and possibly outrun them.

No animal in the world possesses a keener sense of smell than the antelope. It is the keenest of all animals, and the antelope is the keenest of all animals.
